FIND AND REVIEW ICO

Token	: ERC20
Name	: ICO Review
Symbol	: ICRT
Total Supply	: 30,000,000,000
Decimal	: 8

INTRODUCING

We are a new Company engaged in the Review of ICO/ITO. We will find ICO/ITO which is interesting to review and review it for you, so you can determine to infest or not in an ICO/ITO.
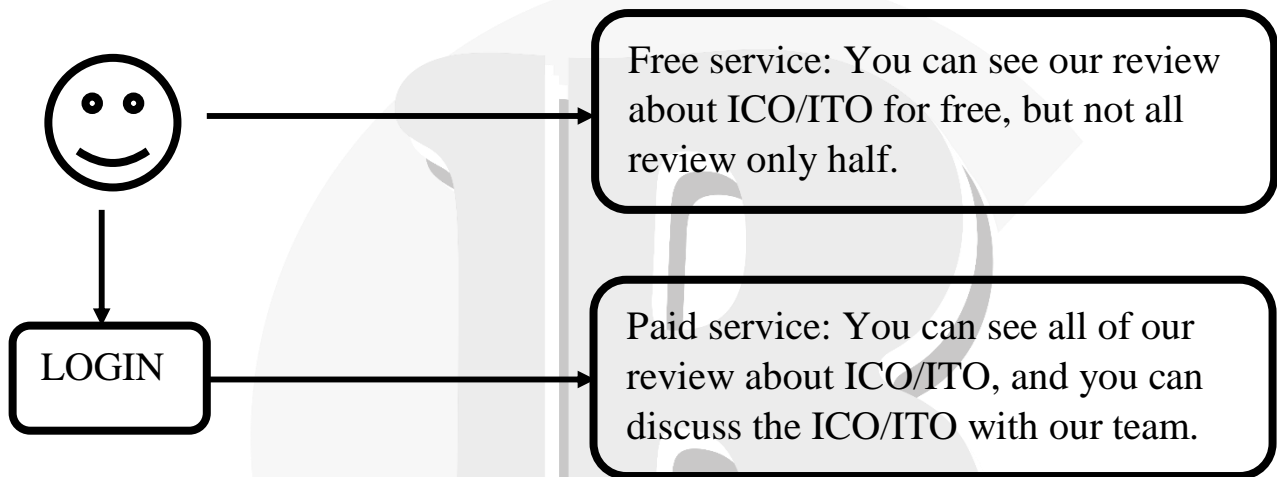

We will build a new platform that will be used to review ICO/ITO. You can easily access our platform with accessing a website, that is very easy to understand and user friendly.

What is the ICO and ITO? ICO is abbreviation for Initial Coin Offering and ITO is abbreviation for Initial Token Offering where there is a new company that sells a coin or token to you with various offers and promises they give. Our job here is to give value to the company and the Coin or Token they sell based on the knowledge of our expert team who are experienced enough in their fields. So you don't need to bother to find out about the Coin or Token that you will invest.

As we know that the more days more new ICO/ITO emerge with their respective advantages and disadvantages, some of them are scam projects that will only lost your money and some are really good companies that will give you a profit many times the amount of funds your invest. We will review the new ICO/ITO to make it easier for you to make a decision to invest in the Coin or Token.

In the long run, we will develop our platform as ICO / ITO Reviewer as well as Bounty and Airdrop Platform, but this will be developed after we successfully launch our main platform to the public.

Then what is the use of ICRT tokens in this project?. Later you will need ICRT tokens to subscribe to our platform as premium customers, which we will prioritize and get various facilities from us, including direct access to contact our expert reviewer team.

Free service: You can see our review about ICO/ITO for free, but not all review only half.

Paid service: You can see all of our review about ICO/ITO, and you can discuss the ICO/ITO with our team.

ICO Review Token

About the Future

We have a lot of planning for this project going forward, but we will only focus on developing the main project first. Among these planning are:

1.   Platform bounty hunter
2.   Platform airdrop hunter
3.   ICO/ITO Service
4.   And many more

THE TOKEN

Let's talk about the tokens we made. This token is located on the ETH platform is ERC20 Basic Token with a total supply 30,000,000,000. **WE WILL BURN PERIODICALLY** depending on market interest and token holders and the benefits for our project.

The name of this Token is "ICO Review" with symbol "ICRT" (**IC**o **R**eview **T**oken) with 10% distribution for the team, 15% for project development, and 75% for selfdrop. We don't have ITO plan because we want to build huge of community, you can get tokens for free by following our selfdrop. Don't forget to join our community by joining telegram group, follow our twitter, and follow facebook.

ICRT

■ Team   ■ Developing   ■ Selfdrop

BENEFIT TOKEN HOLDER

You can get free token by joining our selfdrop, so what benefit for holding our token?. As explained later we will have paid services using our tokens, you can use the selfdrop token to pay for the service. In addition, if we have already registered tokens in exchange, you can exchange them for ETH or BTC.
